COLOUR ISN'T JUST FOR KIDS! ADD PERSONALITY TO ADULT SPACES WITHOUT BEING OVERPOWERING

Colour is an easy way to update a space quickly. Whether you love sunny yellows or coral pinks, there's something for every room.

Soft colours look great paired with crisp whites, light coloured timber, and lots of textures.

TIP

GREYS AND COOL TONED NEUTRALS ARE A SOPHISTICATED ALTERNATIVE TO WHITE

Greys and neutrals are a great backdrop for accent colours such as teals or hot pinks. Using these as a base means you can change your furnishings easily and transform the space without re-painting.

Warm neutrals have pink or yellow undertones, and make a space feel cosy. They look great in living areas and bedrooms. Cooler neutrals with blue or green undertones are modern, and ideal for exteriors.

SOFT PASTELS

Use pastel toned hues on walls and furniture to bring modern sophistication to a space.

Complete a pastel colour scheme by painting focal pieces in the room, such as bedside tables or bookshelves.

Grey can be a pastel too! It looks great paired with mint, blues and lilacs.
